

REMARKS

The claims were objected to because of the "excessive and confusing spacing between the claim lines." The claim numbering was also objected to. These problems arose as a result of the electronic filing of the application due to the PASAT software. The printer also apparently cut off letters at the right margin, resulting in misspelled words. Applicants herewith present a clean copy of the claims, substituting Claims 21 to 40 for original Claims 1 to 20.

Claims 1 to 20 were rejected under 35 U.S.C. 112, second paragraph, as indefinite. The language in new Claim 21, which replaces original Claim 1, has been changed to clarify which polymers are used with the phthalides. Claim 34 and Claim 38, which replace Claims 14 and 18, respectively, have been amended to overcome the rejections that were made to Claims 14 and 18.

As all of the objections and rejections are now believed to be overcome, reconsideration and allowance of Claims 21 to 40 are requested.

Respectfully,

Richard D. Fuerle
